“ My memory is of Stephen, Justin's dad, from Anna C. Scott elementary school. Stephen, you and I spoke on the phone maybe 10 of more years ago when an LHS reunion was being planned. You mentioned your son with serious illness and I felt your deep concern. I was at a loss for how I could be of help yet my heart went out to you. For some unknown reason, since yesterday you have been on my mind a lot. So I have prayed for your son, you and your entire family. I lost my son a year ago so maybe he has played a role in my connecting with you. I don't know. But now I hope you are all in good hands and feel Justin's love around you.
Most Sincerely, Christine Tashjian
